ROMAN FORUM

FORO ROMANO

Much like Roman Forums, we hope our sectional will be the focal point of gathering in your home. This sofa's design was inspired by the Italian Market Forum of Trajan. The channel design of this sofa comes from the causeways seen on the plan of the Roman Forum.

The Roman Forum became a center for day-to-day life in Rome. It has been one of the most celebrated meeting places in the world. In modern-day society, especially home life; our most celebrated spaces for meeting are our living rooms. Much like the forum, living rooms have developed gradually and organically from drawing rooms and formal sitting rooms into more social and casual rooms of relaxation.
